1999

The location of the birth record in DeKalb County Books is usually given on the same line as the infant's name or date of birth. As space would permit.

The place of birth can easily be found by the book number.

Auburn - books A25, A26, A27, A28, A29,
A30, A31, A32, A60

Butler - books 9, 37, 41 (sometimes given with P⁹)

Garrett - books G20, G21, G22, G27, G28,
G29, G32, G33, G34

Altona - book 29

St Joe - Book 10

Waterloo - Books W8, W38

rural / township - books 1, 2, 3, 4, 5, 6, 7, 31, 32, 33

These records are from file cards of the DeKalb County Health Department. The File cards seldom have the complete mother and father's names as given in the original Birth Records. Some errors may occur because of the poor writing of the records. Many that look as if they are errors, are not. The dates and differences in names and spelling often do appear in the DeKalb County Records.

Thanks, to the Board of the DeKalb County Health Department for permission to copy the records. The only request was that all illegitimate births were not to be copied. This I have tried to do.

Special Acknowledgement is given to Mrs Frances Kessler, of the Health Department. Without her co-operation, these records would not have been compiled. Thank you, Frances.

These records are from the office of the British
Health Department. The files contain records of the
mother and father's names as given in the original birth
records. Some errors have occurred because of the poor quality
of the records. They have been looked at and corrected, but
not. The names may differ in cases and spelling after
as given in the British Census Records.

These, to the best of the British Census Health records
were for permission to copy the records. The only records
was that all illegitimate children were not to be included in
I have tried to do.

Special acknowledgment is given to the records section
of the Health Department. With our co-operation, these
records would not have been completed. Thank you, London.
